Discussion:

Councilor Kelly said I just thought it odd that we are approving our own appointments.

Councilor Dowdle said quick job description of a liaison. Is it what we make it?

Mayor Calnon said absolutely not and that's a very good question. There are 2 functions that are being served by the creation of liaisons. One of them is to help Councilors do their job as counselors. Over the course of the year, we have a lot of interactions from our departments from special events, activities and principally of course budget. If the Councilor has a good relationship with a department then they're going to get a better idea of the ins and outs of that department. And when we get to budget time can to some extent advocate for things that they are well aware of. On the other hand it also gives the department head a chance to have someone on the council that has a little bit more information about their activities and it's someone that they can bounce some ideas off. That they can really say what do you think the council would think if we suggested this, sort of thing. There's a few things that it's not and those are from my standpoint critical. It's not like a Board of Commissioners where you then become the Director of that Department. All of the staff of the City work under the direction of the Mayor. It's important to remember that a liaison cannot order any of the city departments to accomplish something that doesn't either come from the Mayor's office or through an appropriate council resolution. Maybe even more importantly, is it should not be viewed as an opportunity for employees in that department to circumvent a chain of command and try to get around their boss and get to the council level or to the Mayor's office. It really is a really good relationship. Often times if there are any issues that surround employment concerns the liaison may have interaction with union leaders. That's also a very appropriate interaction, because again you have some specific information about the department that would make that very valuable. I think in general that's the role and I think it really does aide a lot of the action at the council table because there's a whole lot better communication about more detail then we sometimes see in a resolution.

Councilor Dowdle said so mostly to familiarize with budget?

Mayor Calnon said the biggest item that the council's charged with is budget. As the legislative body, which the council is, that is one of the primary purposes in the charter to approve the budget. It's a vital role and vital connection and when we get sitting down and if we are faced with any really hard decisions of having to think about where can we cut where should we add those kinds of things. Having a little bit more knowledge about the day to day operations is valuable. Obviously, as Mayor I interact with Department Heads all day long. I probably have a better idea of the day to day stuff. But I shouldn't be the only one that has that kind of information. The more eyes you put on a problem the better chance you're going to find a solution.

Councilor Dowdle said on the what we don't do list, auditor, would come under that as well, is that correct? We're not going to audit the budgets. I mean they work for you not to be circumvented, not directors and not auditors.

Mayor Calnon said we're not auditors but I think we have to have enough understanding of the budget. Particularly, understanding the impact of budgetary decisions is an important piece of this. Because ultimately you just audited bills, you do need to pass a budget. So there is some connection there. Again, it is not meant to be a veto over a bill that is properly brought forward. If that's kind of where you are going.

E. RESOLVED: that the Memorandum of Agreement between the City of Plattsburgh and IBEW Local #1249 for a five year term retroactive to July 1, 2012 and continuing through June 30, 2017 shall be and hereby is ratified and approved and the Mayor shall be and hereby is authorized to execute a collective bargaining agreement containing its terms on behalf of the City.

By Councilor Kelly; Seconded by Councilor Dowdle

Discussion:

Mayor Calnon said my involvement in the actual negotiations really consisted of the last day. Much

of the work was done during the last term and we went to fact finding. So a lot of the behind the scenes that took place happened then. It was a long process and an awful lot of work on both sides of the table went in to it. I am pleased to have this on the agenda tonight.

M. RESOLVED: In accordance with the request therefore the Common Council approves that the Mayor is authorized to sign Architectural & Engineering Agreement with AES Northeast, PLLC for Contract # 2014-24"Design and Construction support services associated with the mold removal from the City Marina Building on Dock Street." The cost associated with this service is \$17,298.

Roll call: Councilors Kelly, Dowdle, O'Connell, Kretser (**Councilor Kretser stopped Roll Call and asked if it is too late to discuss?**)

Mayor Calnon asked the entire Council if anyone objected to having discussion after Roll Call had started. No one objected.

Councilor Kretser said I want this to happen more than anything. I want to fulfill the vision for all of us for how amazing the water front will eventually be. And talking with my constituents in my Ward, fielding telephone calls from area business owners and community leaders that are commenting that they are nervous about this process moving forward with rebuilding this particular structure in the manner that it is now. They have concerns of future flooding and investing in something that doesn't fulfill the vision of what I hope it will be and what my constituents hope it will be. I am also concerned as to why it is we are not able to access the problem before authorizing design for remediation and possible construction of a bathroom. I've asked why we can't spend the \$4,339 just to receive the assessment of the mold and included in that \$4,339 receive a recommendation that we would then give to a remediation company for a free estimate of what they would charge us to remediate the mold in the building. I don't know if it is even possible for me to request to amend this request to offer I guess...am I allowed to...ask for a vote to see if we could potentially change the \$17,298 figure and amend it to be approved for \$4,339.

Corporation Counsel Dean Schneller said you could vote yes or no on this motion..

Councilor Kretser said but to keep the progress moving I would love for us to authorize this \$4,339 so that we could get the assessment and recommendations of the mold assessment company.

Mayor Calnon said I believe what Dean is saying is we have the motion on the floor duly made and seconded we have to deal with it since vote has begun we need to deal with this one. The Council as a whole certainly can authorize thru its rules consideration of a subsequent amendment either now or at conclusion of the meeting under new business. We do have to dispense with this one it is the issue.

Councilor Kretser said say we all vote no then we could make a motion today to pass \$4,339 to be spent for the assessment.

Mayor Calnon said yes. Now before you cast your vote since the floor has been opened for your comments does anyone else have any discussion that they would like to offer?

[Further discussion ensued]

Mayor Calnon said what Councilor Kretser is talking about is wanting to have Councilor level resolution control of every step of this process. It's a question about what's the roll of a legislative body and what's the roll of the executive. I'm asking you to appropriate funds. I'm not asking you to give me a blank check that has no other checks and balances to it. If we start to break up these projects in to these kinds of things the parts are going to cost more than the whole. What I'm asking

for is room to do the job that I was hired to do. And to keep in mind in the general sense you guys fund activities I do them. If you want to try to do every piece of this project, you're trying to do my job and I have a real problem with that. There is a separation of legislative and executive. It's a clear definition of duties and I need this kind of authority to do my job every day.

[Further discussion ensued]

Mayor Calnon said it goes back to what I said before. The Council really authorizes and allows or funds or empowers in the end it's the administration's job to do that and to do that in the best interest of the taxpayers and the clearly understood will of the council. That to me is the tipping point here. It is about being sure that we separate the rolls of legislature and administration.

[Further discussion ensued]

Mayor Calnon asked to complete the Roll Call. Councilor Kretser voted no.

Discussion:

Councilor O'Connell said at least we are starting to creep any step forward is good even though I didn't get what I wanted at least we are heading in the right direction. I appreciate the motion Josh.

Councilor Kretser said hopefully it won't slow us down too much and we'll have some time to find what the assessment and recommendations are and hopefully be able to find a cohesive way to proceed.

Councilor O'Connell said and obviously it is at their leisure whenever they want to do it, right like anything else.

Mayor Calnon said I'm not sure. I'm not sure I'm the Mayor of this City. I take great objection to this entire conversation. Because what I hear in this is the Council does not trust my judgment, they don't think that given authorization to spend money I will have the sense not to spend it if we don't need it. I sat in the Council chair for seven years. Six years as Budget officer and I protected the taxpayers money. Now, to believe that I have to come back every moment to this Council for authorization is offensive and yes I am angry!

Councilor O'Connell said you have every right to be angry and the reason why I am doing it is so we can start to move in the right direction. I'm totally confident in your abilities and I'm sorry you feel that way. I would probably feel the same way in your shoes.

Councilor Dowdle asked about the overhead crosswalks that they heard about last year possibly being installed at SUNY on Rugar Street.

Mayor Calnon said on Rugar Street once the High School is out for the summer they are going to construct raised crosswalks. Much like you see in front of the city gym. It is a means of slowing traffic as well as making the cross walk much more visible to drivers. They are doing 2 of them and they think it is going to take quite a bit of the summer to accomplish that.

Councilor Dowdle asked questions about the docks on dock street and the signage. Asked if the potholes are all filled for the year.

Councilor O'Connell asked where we are with the North Margaret Street study.

Kevin Farrington updated the Council on North Margaret Street study.

Mayor Calnon’s \$500 donation for May is going to the Friends of the Saranac River Trail to help with expansion of the trail beyond the City.
